

KEY FEATURES

- Quite 59db noise level
- Corrosion resistant aluminum cabinet
- Plug and Power™ Smart interface system

DETAILS

The 123e-40kW Modular Smart Enabled Generator is designed for seamless integration with 123e Smart Solar Power Generators, offering reliable, efficient power solutions. Equipped with a Plug and Power™ interface system, it ensures easy setup and operation. This generator provides a 240V output and features 140 Amp Circuit Protection for enhanced safety. With a large 140-gallon fuel tank and mounted on a single-axle trailer, it is built for mobility and long operation periods. Operating at a quiet 59dB noise level, it delivers power without disruption. Its corrosion-resistant aluminum cabinet ensures durability and longevity, even in harsh environments.

TECHNICAL SPECIFICATIONS

Diesel Backup

Generator Max Power (kW)	40kW
Fuel Tank Capacity (Gal)	140
Fuel Type	Diesel
Fuel Consumption (Gal Per/HR)	1.34@ 100%
Sound dB	59dB
Tier 4 Final	Yes
